

TITLE: General Installer

DATE: 2019 – Applications accepted on a rolling basis

STATUS: Contractor

REPORTS TO: Operations Manager

DEPARTMENT: None

COMPANY DESCRIPTION:

At Funovation, we believe fun should be bright and play interactive. That is why we set out to create amusement attractions that require brain and brawn and have just the right amount of moxie to bring out the kid in us all. Our premier attraction, the Laser Maze Challenge®, invites players to “step into the game” and star in their own immersive, action-packed laser adventure, and RAID® (Rapid Alien Invasion Defense) challenges player to an interactive alien takeover challenge. Our latest attraction, Omniverse VR Arena, is an esports virtual reality attraction featuring 360-degree treadmills that encourages players to run in VR.

Since introducing the Laser Maze Challenge to the industry in 2007, we have installed attractions in over 400 locations and 29 countries. We are looking to add general installer contractors to continue our growth and further expand our product lines.

BACKGROUND:

This position’s primary responsibility is to install and trouble-shoot Funovation’s attraction(s) at customer sites.

SKILLS AND EXPERIENCE:

Ideal candidate will have:

1. Good basic knowledge of home and commercial construction
2. Basic computer knowledge (this is a must)
3. 2+ years’ direct professional experience and non-professional experience in a non-commercial area (home repair, remodeling, volunteer work)
4. 1+ years’ experience working on a team to complete installations and working with a foreman
5. An ability to work well within a team
6. An ability to install efficiently with strong confidence and quality
7. A “can-do” attitude

TROUBLE-SHOOTING SKILLS:

- Find loose connections, bad solder joints, and mis-wired cables
- Alignment of fixtures, lights
- Help document system installation for future remote debug
- Diagnose bad components, modules, and cabling to minimize time and resource waste
- Basic understanding of optical appliances; care and maintenance of optical devices

TECHNICAL SKILLS:

- Electrical wiring, low voltage as well as knowledge of power (120VAC)
 - Cat-5 termination
 - Trouble-shoot electrical connections, cable mis-wires
 - Snaking wires
 - Replacing bad components in a system
- General construction knowledge, including framing, drywall, carpentry, and painting
- Be intimately familiar with the Laser Maze system
- Lead customers through a system training
- Safe use of power and hand tools
- Follow plans, including reading measurements and translating plans to the customer’s space

ATTITUDE:

This person will be representing our company to our customer. This person must present Funovation's fundamental values in every situation; Professional, Fun and Innovative. If a situation arises where there is a problem, this person should be able to make a minor, on-the-spot change and continue to satisfy the customer. This position will be supported by an additional Installer on site, as well as Funovation headquarters staff.

TEAMWORK:

Must be able to communicate status and concerns with the customer in a positive manner and work well with other Installers. Must be able to follow the directions and/or delegate tasks. Must be able to complete individual and 2-person tasks efficiently.

QUALITY:

The Installer is responsible for the quality of the installation and should take pride in such.

WORK ENVIRONMENT/PHYSICAL ACTIVITIES:

While performing the responsibilities of this job, the Installer will be frequently exposed to fumes or airborne particles, construction tools, and vibration. The noise level of the job site can be loud. This position regularly requires 8+ hour days, weekend work, and night work. This position requires the ability to:

1. Lift, push, pull, and carry objects up to 50 pounds
2. Stand for long periods of time
3. Perform strenuous physical labor

TRAVEL:

This position requires travel; Domestic and international installs will be available. Each installation is expected to be 3-4 days with 2 installers.
